

LTEG Privacy Policy

LTEG Working Group - lteg@scimail.org

last updated: January 10, 2011

Preamble

LTEG seeks to ask permission for publishing material related to its activists and ensures that their privacy is protected by national laws ¹.

In general, no pictures or video featuring LTEG activists will be published unless there is a clear consent by the activists involved expressed in oral, written or electronic forms. In case there is no response from an activist to our request, then it is assumed that the default preference is NOT to give consent to any such use.

Internal Publications

As far as its publications are concerned, LTEG asks for the permission to do the following:

- To take photographs and videos of activists involved in LTEG activities, seminars, trainings, etc.
- To retain a copy in its archive.
- To use them when needed for displays, publications, its website and other digital formats, or other non-commercial initiatives.

Photographs and videos will not be made available for any commercial use. Should LTEG seek to use photos, videos or other information related to its activists on web services or paper publications controlled by LTEG or SCI, then activists will be informed of the need and will have the option to give consent.

External Publications

Should LTEG seek to use activists' photos, videos or other information on web services or paper publications which are NOT controlled by LTEG or SCI (such as Facebook, Youtube, or other external publications), then the activist must understand that he or she is being asked to give consent and agreement to the external "terms and conditions" of these services which LTEG and SCI is not responsible for. In particular, it is assumed that activists appreciate the fact that a complete removal from any external servers not directly controlled by LTEG or SCI is beyond the capacity of LTEG and cannot be guaranteed.
