

LTEG SG skype -- 17 Mar 2013

3pm CET

present: Magda, Maria, Sarah

POT 2013:

- feedback
Jimmy, Slavyana, Minerva and Magda as prep-team. Cold weather and many people sick. Some issue to connect to OPS server. Large group: ~23, only 4 men => very unbalanced and difficult, intolerant, to work with; Magda's 5th POT, most difficult group until now. Absolutely not prepared for what they are going to do. Big gap between what is discussed in sessions and attitude during free-time.
Lessons for next year:
 - need local version of OPS (which does not require internet connection)
 - group size max 20, better gender balance if possible
 - who is in charge of making sure the POs have a minimal understanding of what they are supposed to do? Hosting branch? POT? => Can we require the branches to do minimal preparation before sending their volunteers to POT?
- reporting/finances
Reporting and finances (reimbursements) done by SCI Catalunya. Trainers help by providing summary of sessions.
- online POT
Would have to contact Slavyana or Minerva to get info if anything is planned
- POT 2014?
No candidates to host for the moment.
=> **To do:** Talk to OPS team to decide who is in charge of organising it, and try to apply on May 1st (October 1st would then be kept as backup YiA deadline).

Plan of Action:

- regional appendices [Michael wanted to do something about Africa]
Maria discussed with Emmi (Africa WG). **Maria** will send outcome of discussion by email.
- emergency procedures
Maria will contact Larissa and Sandra
- datatbase
Emmi added many projects from uganda.
- statistics
A lot of emails to try to clean the data. Now some kind of consensus state: we will use this as final statistics for 2012.
- LTV coordinator of the moth
Still waiting for pictures from Sonja.
- Feedback from LMTV meeting
Sarah: send email to Mihaela

Next meeting:

- Invite OPS team to discuss who should organize/coordinate the meeting
- date: preferably week days, soon such that grant application can be submitted for May 1st.
- Sarah:** prepare doodle -> meeting for POT within 10 days, "general" LTEG skype in about 1 month.
